

Nexlog
Boosting profits

Integrated e-Commerce and Door-to-Door Logistics Platform

Turn Empty Belly Space
into Pure Profit

**Air Cargo is Changing Fast
E-commerce is exploding and
customers now expect faster,
cheaper, door-to-door delivery everywhere.**

Future of air cargo isn't just pallets it's parcels.
E-commerce is exploding, and consumers now expect
faster, cheaper, door-to-door delivery everywhere.
Airlines that act today can transform their belly capacity
into a profit machine capturing new revenue streams
with high-yield small packages

About us

Nexlog
Boosting profits

Since 1994, Nexlog® is a leading provider of cutting-edge IT solutions for the air cargo and logistics industry.

Past

Our journey in cargo management systems began in 1994, when we delivered bespoke solutions for major industry players such as Varig Log, Vaspex, Correios (Brazilian Postal Service), and Avianca Cargo.

Present

Today we deliver worldwide a fully integrated platform designed to connect airlines, partners, and customers in one digital ecosystem. We combine real-time visibility, open APIs, and customer-centric innovation.

Future

Our vision is to build the global standard for D2D e-commerce logistics, empowering airlines to transform every shipment into profit while driving efficiency, transparency, and sustainable growth.

Root-cause failure analysis to prevent issues.

**The only
Logistics
Door to Door
and e-Commerce
Platform with
Artificial Intelligence.**

AI Control Tower that follows every step and alerts customers directly on WhatsApp.

Your package was dispatched for delivery at 9:00 AM, with an estimated arrival time of 11:00 AM.

If you have any questions, feel free to contact :-)

Success Cases

Gollog

The Challenge:

Brazil's largest air cargo airline, GOL, needed to modernize its e-commerce and door-to-door delivery operations, which relied on multiple legacy systems and limited integration between air and ground networks.

The Solution:

By adopting Nexlog's unified Cargo Management System, GOLLOG now runs a fully digital operation, from online booking to last-mile delivery, achieving real-time visibility, faster workflows, and nationwide scalability.

Modern

The Challenge:

Growing cargo airline needed scalable, cost-effective solution to manage increasing volume while maintaining service quality and operational efficiency.

The Solution:

Cloud-native Nexlog deployment with full API integration and automated workflows.

Air Caledonie

The Challenge:

Regional airline sought unified platform to manage air cargo and integrate ground services across multiple Pacific island destinations.

The Solution:

Comprehensive Nexlog implementation with multi-location support and partner integrations.

**Turn your air
cargo operation
into a digital
profit engine.**
